

[3301] Index_Industry_Sectro Chart_0.9

1. Overview of Screen

This screen views current index, up/down stocks and hourly index status of industries that represent an index like "SET, MAI, SET50, SET100, SETHD, sSET" using a "10-second/1-minute/5-minute" chart to identify flow of industrial index at a sight.

2. Description of Screen

1 Selection Window

- 1 Directly select a market to view among "SET, MAI, SET50, SET100, SETHD, sSET" or click button to select a market and search an industry.

- A** Select a market to view
- B** A stock can be viewed by industry code and stock name.
- C** Stocks are viewed.
- D** If 'Intermediate search' is checked, intermediate search of the stock can be viewed. If "Keep Search Function Open" is checked, the 'Search' pop-up window is kept instead of disappearing after double clicking and entering industry.

- 2** Select data to be viewed among "10Sec, 1Min, 5Min".
- 3** Select Prev Index to identify flow of industrial index of the previous day.

2 Industry chart of the selected time unit can be viewed.

3 Current index status, up/down stocks and hourly index trend of the selected industry can be viewed
