

## [FE07] Stock Calculator

### Stock Calculator

Unlike ordinary calculators, the stock calculator can calculate 'Orderable/Trading Settled Amount/Target Yield' in addition to various fees and taxes imposed on stock trading.

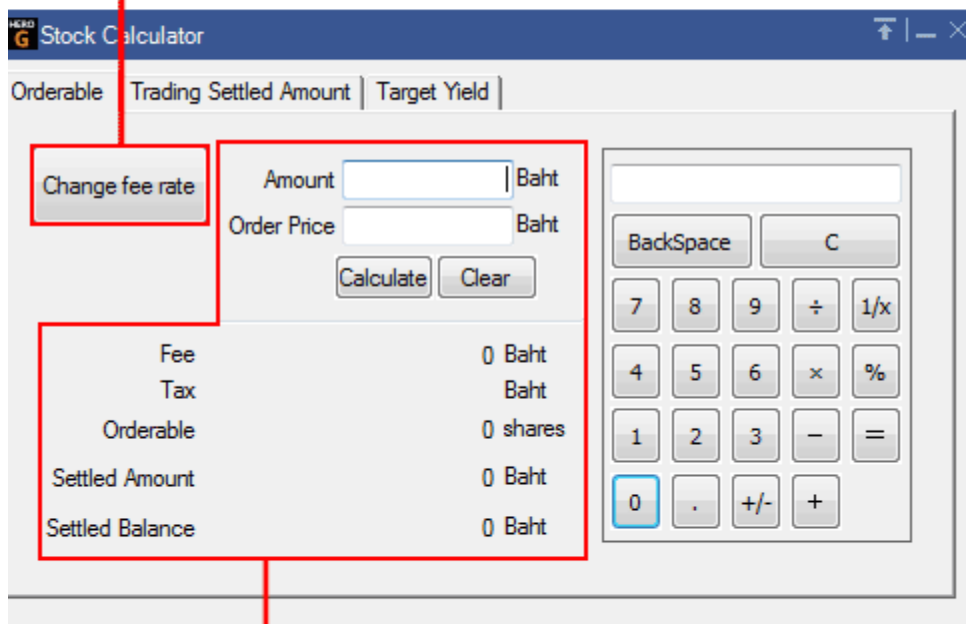

#### 『Orderable』

Change Fee

※ VAT : Transaction tax for SET of MAI  
 ※ FEE = Trading Fee + Clearing Fee + Commition Fee

- VAT  %  
 - FEE  %

Stock Calculator

Orderable | Trading Settled Amount | Target Yield

Amount  Baht  
 Order Price  Baht

Fee 0 Baht  
 Tax Baht  
 Orderable 0 shares  
 Settled Amount 0 Baht  
 Settled Balance 0 Baht

BackSpace C  
 7 8 9 ÷ 1/x  
 4 5 6 × %  
 1 2 3 - =  
 0 . +/- +

Enter Amount and Order Price and click  button to view information like 'Fee, Tax, Orderable'.

#### 『Trading Settled Amount』

1 Select an order type among 'Buy, Sell, Buy/Sell'

2 Click  button to open the 'Change Fee' pop-up window and change fee rate.

3 Select a wanted condition between 'Accumulation, Net gain'.

4 After entering values into items appropriate for the selected order type among 'Volume, Buy Price, Sell Price', click  button to view information like 'Fee, Tax, Settled, Yield'.

Click    buttons to add or remove the calculation result to  area

5 Accumulation or net gain of trading settled amount can be checked.

## 『Target Yield』

Sell Price to Achieve Profit and Expected Yield can be calculated.
